PROFESSIONAL SUMMARY

Detail-oriented and results-driven final-year Computer Science & Engineering student with proven hands-on internship and project experience in Data Analytics and Business Intelligence. Skilled in Python (Pandas, NumPy), SQL querying, data cleaning, statistical EDA, and creating dynamic interactive dashboards in Power BI and Advanced Excel. Certified across industry skilling initiatives (Skill India Digital Hub, Reliance Foundation, PHN Technology) with demonstrated ability to translate raw relational datasets into actionable business insights that drive strategic decisions.

TECHNICAL SKILLS

- **Programming & Scripting:** Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (MySQL, PostgreSQL)
- **BI & Data Visualization:** Power BI (DAX, Interactive Dashboards, KPI Visuals), Tableau, Advanced Excel (Power Query, Pivot Tables, XLOOKUP)
- **Data Analytics Core:** Data Ingestion, Cleaning & Preprocessing, Exploratory Data Analysis (EDA), Statistical Insights, KPI Metric Definition
- **Database & Tools:** Relational Database Management (DBMS), Data Modeling, Git & GitHub, Jupyter Notebook

WORK EXPERIENCE & INTERNSHIPS

Data Analytics & Business Intelligence Intern

Sep 2026 – Oct 2026

RabTech Academy (MSME Recognized) | Remote

Grade A+ (92/100)

- Completed a comprehensive 30-day evaluated virtual internship scoring 92/100 (Grade A+ Outstanding across 6 rigorous modules).
- Formulated end-to-end KPI Dictionaries and Data Quality Contracts, defining key business metrics and data governance rules.
- Executed automated data ingestion, cleaning, and preprocessing pipelines using Python (Pandas) to handle anomalies and missing records.
- Conducted rigorous Exploratory Data Analysis (EDA) and statistical evaluations to uncover operational trends and patterns.
- Engineered interactive multi-page dashboards featuring dynamic KPI cards, slicers, and drill-through visual analytics.
- Authored an Executive Decision Report and capstone presentation delivering data-backed recommendations for organizational stakeholders.

KEY PROJECTS

E-Commerce Customer Churn & Analytics | *Python (Pandas, Seaborn), SQL, Power BI*

- Extracted and cleaned a relational dataset of 10,000+ customer transaction records using SQL queries and Pandas.
- Performed exploratory data analysis to isolate critical churn drivers, customer lifetime value segments, and revenue leakage points.
- Designed an interactive Power BI dashboard tracking Monthly Recurring Revenue (MRR), Customer Lifetime Value (CLV), and retention rates with custom KPI visual cards.

Sales Performance & Forecasting Dashboard | *Excel (Power Query), SQL, Data Modeling*

- Normalized raw multi-sheet sales datasets using Excel Power Query to eliminate schema discrepancies, duplicates, and missing values.
- Engineered automated dynamic reporting workflows leveraging advanced Excel formulas (XLOOKUP, INDEX/MATCH, Dynamic Arrays, Pivot Charts).

- Delivered executive visual reports highlighting product category performance and quarterly growth opportunities for data-informed planning.

CERTIFICATIONS & SKILLING CREDENTIALS

- **Mastering Power BI: Data Analysis and Dashboard Creation –** PHN Technology Pvt. Ltd. via Skill India Digital Hub (Sep 2026)
- **Data Science for Everyone (180 Hours) –** Reliance Foundation Skilling Academy & NSDC / Skill India Digital (Sep 2026)
- **Verified Remote Internship in Data Analytics & BI –** RabTech Academy (MSME Recognized, ID: RAB-CERT-2026-38FBA3D2AFD5)
- **Google Data Analytics Professional Certificate –** Coursera
- **SQL for Data Science –** DataCamp / Online Certification

EDUCATION

B.Tech in Computer Science & Engineering **Graduating: 2026**

Bharatratna Indira Gandhi College of Engineering, Solapur (Affiliated to DBATU)

- Relevant Coursework: Database Management Systems (DBMS), Applied Mathematics & Statistics, Data Structures, Software Engineering.
- Languages: English, Hindi, Marathi, Kannada.
